PERIOD: 01 AUGUST 2020 – 30 JUNE 2021.

1 PERSONAL DEVELOPMENT PLAN

1.1.1 A Municipality should be committed to:

- (a) the continuous training and development of its employees to achieve its vision, mission and strategic objectives and empower employees and
- (b) Managing training and development within the ambit of relevant national policies and legislation.

1.1.2 A Municipality should follow an integrated approach to Human Resource Management, that is:

- (a) Human resource development forms an integral part of human resource planning and management.
- (b) In order for training and development strategy and plans to be successful it should be based on sound Human Resource (HR) practices, such as the (strategic) HR Plan, job descriptions, the result of regular performance appraisals and career-pathing.
- (c) To ensure the necessary linkage with performance management, the Performance Management and Development System provides for the Personal Development Plans of employees to be included in their annual performance agreements. Such approach will also ensure the alignment of individual performance objectives to the municipality's strategic objectives, and that training and development needs can be identified through performance management and appraisal.
- (d) Career-pathing ensures that employees are placed and developed in jobs according to aptitude and identified potential. Through training and development they can acquire the necessary competencies to prepare them for future positions. A comprehensive competency framework and profile for Municipal Managers are attached and these should be linked to relevant registered unit standards to specifically assist them in compiling Personal Development Plans in consultation with their managers.
- (e) Personal Development Plans are compiled for individual employees and the data collated from all employees in the municipality forms the basis for the prescribed Workplace Skills Plan, which municipalities are required to compile as a basis for all training and education activities in the municipality in a specific financial year and report on progress

made to the Local Government Sector Education and Training Authority.

1.1.3 The aim of the compilation of Personal Development Plans is to identify, prioritise and implement training needs.

1.1.4 Compiling the Personal Development Plan attached at Appendix.

- (a) Competency assessment instruments, which are dealt with more specifically in Appendix 1 and 2, should be established to assist with the objective assessment of employees' actual competencies against their job specific competency profiles and managerial competencies at a given period in time with the purpose of identifying training needs or skills gaps.
- (b) The competency framework and profiles and relevant competency assessment results will enable a manager, in consultation with his/her employee, to compile a Personal Development Plan. The identified training needs should be entered into column 1 of Appendix 1, entitled Skills/Performance Gap. The following should be carefully determined during such a process:

i. Organisational needs, which include the following:

- Strategic development priorities and competency requirements, in line with the municipality's strategic objectives.
- The competency requirements of individual jobs. The relevant job requirements (job competency profile) as identified in the job description should be compared to the current competency profile of the employee to determine the individual's competency gaps.
- Specific competency gaps as identified during the probation period and performance appraisal of the employee.

ii. Individual training needs that are job/career related.

- (c) Next, the prioritisation of the training needs [1 to...] should be listed since it may not be possible to address all identified training needs in a specific financial year. It is however of critical importance that training needs be addressed on a phased and priority basis. This implies that all these needs should be prioritized for purposes of accommodating critical/strategic training and development needs in the HR Plan, Personal Development Plans and Workplace Skills Plan.

- (d) Consideration must then be given to the expected outcomes, to be listed in column 2 of Appendix 1, so that once the intervention is completed the impact it had can be measured against relevant output indicators.
- (e) An appropriate intervention should be identified to address training needs/skills gaps and the outcome to be achieved but with due regard to cost effectiveness. These should be listed in column 2 of Appendix 1, entitled: Suggested training and/or development activity in line with the National Qualifications Framework which could enable the trainee to obtain recognition towards a qualification for training undertaken. It is important to determine through the Training/Human Resource Development/Skills Development Unit within the municipality whether unit standards have been developed and registered with the South African Qualifications Authority that are in line with the skills gap and expected outcomes identified. Unit standards usually have measurable assessment criteria to determine achieved competency.
- (f) Guidelines regarding the number of training days per employee and the nominations of employees: An employee should on average receive at least five days of training per financial year and not unnecessarily be withdrawn from training interventions.
- (g) Column 4 of Appendix 1: The suggested mode of delivery refers to the chosen methodology that is deemed most relevant to ensure transfer of skills. The training/development activity should impact on delivery back in the workplace. Mode of delivery consists of, amongst others, self-study. [The official takes it upon him/her to read e.g. legislation]; internal or external training provision; coaching and/or mentoring and exchange programmes, etc.
- (h) The suggested time frames (column 5 Appendix 1) enable managers to effectively plan for the annum e.g. so that not all their employees are away from work within the same period and also ensuring that the PDP is implemented systematically.
- (i) Work opportunity created to practice skill/development areas, in column 6 of Appendix 1, further ensures internalisation of information gained as well as return on investment (not just a nice to have skill but a necessary to have skill that is used in the workplace).
- (j) The final column, column 7 of Appendix 1, provides the employee with a support person that could act as coach or mentor with regards to the area of learning.
