1.2 Financial Performance

This section of the report focuses on the financial health of the municipality as reflected in the monthly budget statement submitted. Information regarding revenue collection and expenditure are detailed in this section.

1.2.1 Operating Revenue

The revenue performance for the month reflects that the municipality generated an amount of (R 13.3 million) and YTD: R 216 million or YTD: 66.27% of the total operating adjustment revenue budget of R326 million.

The performance of the individual items are as follows:

- **Property Rates:** The total adjustment budget amounts to R39.4 million, while the year to date revenue generated amounts to R37.1 million or 94.2 per cent of the budget. Annual debit raising was done in July 2017
- **Service Charges:** The total adjustment budget amounts to R155 million, the year to date revenue recognition amounts to R105 million or 68 per cent of the budget. Annual debit raising on certain service charges e.g. sanitation and refuse
- **Investment revenue:** The total adjustment budget amounts to R2.3 million, the year to date receipts were recorded at R1.5 million or 67.4 per cent of the adjustment budget. Investments kept for longer periods than anticipated.
- **Transfers recognised:** The total budget amounts to R113 million, the year to date receipts stands at R66.2 million or 58.19 per cent of the adjustment budget. An amount of R12 million was withheld from the 1 December 2017 Equitable Share instalment due to the following reasons:
 - An amount of R2 463 166 of the Integrated National Electrification Grant was not approved as rollover from 2016/17 and reverted back to the National Revenue fund
 - An amount of R1 564 933 for Expanded Public Works Programme Grant was not approved as rollover from 2016/17 and reverted back to the National Revenue fund
 - An amount of R8 716 347 was withheld due to a difference in monthly grant reporting and Annual Financial statements for 2016/17.
 - The decision was based on the pre-audited AFS for 2016/17. The municipality is disputing the amounts withheld and, with the assistance of the Sarah Baartman District municipality and the EC Provincial Treasury, has submitted a motivation and requested National Treasury to reconsider their decision. An outcome is awaited.

- **Other revenue:** The total budget amounts to R 15.3 million, the year to date revenue generated amounts to R 5.6 million or 36.7 per cent of the adjustment budget. This revenue source is currently much lower than anticipated and will have to be monitored. Items included in this category which are currently not yielding the revenue as anticipated are Licenses and permits which has yielded only 14% of the budgeted revenue and Gains on disposal of PPE which has yielded less than 1% of the budgeted revenue.

1.2.2 Operating Expenditure

Total expenditure for the month amounts to R 22 million (YTD: R 197 million) or 5 % per cent (YTD: 44.8) of the total expenditure adjustment budget of R 440.3 million. The following factors should be taken into consideration:

- Depreciation not calculated on monthly basis
 - The municipality has embarked on a project to integrate the electronic asset register with the financial system. This will enable the calculation of depreciation on a monthly or quarterly basis.
- Debt impairment not calculated on monthly basis
 - Due to the volume of debtors, this calculation is done annually at year-end. Each debtor is then evaluated for possibility of recover based on past history, payment trends and risks associated with each type of debtor.

The performances of the individual items are as follows:

- **Employee Related Costs:** The adjustment budget amounts to R127.3 million, while the expenditure to date amounts to R84.1 million or 66.6 per cent of the adjustment budget.
- **Remuneration of Councillors:** The adjustment budget amounts to R9.3million, while the expenditure to date amounts to R6.4 million or 68.9 per cent of the adjustment budget.
- **Debt impairment:** The adjustment budget amounts to R14.8 million, while the year to date expenditure reflects R35 thousand. The underspending is due to impairment calculation being done annually.
- **Depreciation:** The adjustment budget amounts to R 65.1 million, while the year to date expenditure amounts to R0. The underspending is due to calculation being done annually.
- **Bulk Purchases:** The adjustment budget amounts to R 82 million, while the year to date expenditure amounts to R50 million or 61.3 per cent of the adjustment budget.
- **Other expenditure:** The adjustment budget amounts to R150.9 million, while the year to date expenditure amounts to R56.1 million or 37.2 per cent of the adjustment budget. The municipality is still struggling financially and the cash flow is currently under severe pressure. Cost containment measures have been implemented and a revised financial recovery plan approved by Council.

The municipality is facing severe cash flow constraints and does not have any cash backed reserves that could assist in the relief of monthly cash flow constraints. Cost containment measures has been implemented and a revised financial recovery plan approved by Council.

Cash flow statement for the month is attached as part of Annexure A.

3.2 Investments

Regulation 9 of the Investment regulations requires that the Accounting officer of a municipality must within 10 working days of the end of each month, as part of the section 71 report submit to the Mayor a report describing in accordance with generally recognized accounting practice the investment portfolio of the municipality as at the end of the month.

The report must contain at least:

- (i) the market value of each investment at the beginning of the period
- (ii) any changes to the investment portfolio during the reporting period
- (iii) the market value of each investment at the end of the period
- (iv) fully accrued interest and yield for the reporting period.

Attached as part of Annexure A is a schedule reflecting all investments for the period ending 28 January 2018.

Creditors owed between 0-30 day's amounts to R 12.1 million, 31-60 day's amounts to R1.7 million, 61-90 day's amounts to R2.1 million, 91-120 day's amounts to R 2.3 million, 121 – 150 day's amounts to R 42.5 million. The municipality is experiencing cash flow problems and creditors cannot be paid within the legislatively required 30 days. The municipality has reviewed its Financial Recovery plan to ensure improved financial health and is currently busy with developing a revenue enhancement strategy.

Payment arrangements have been entered into with Eskom, Auditor General and Department of Transport whilst a revised payment arrangement has been forwarded to SALGA.

Litigation cost inherited from the amalgamation is continuing to put additional strain on the municipality which we can ill afford.

Water losses for January 2018 were calculated at 35% and for February at 39%, with the year to date average loss at 32%.

Billing seems to be problematic due to incorrect readings – in some areas billing are far more than water production/usage. An investigation with regards to the meter reading in Aberdeen indicated that meters linked to the “municipal tariff” (own consumption) is extremely high.

Some areas are not billed for water due to no meters installed (straight connections)

RE : MONTHLY SCM REPORT: FEBRUARY 2018

Purpose

This report is intended to project the implementation of the SCM Policy in conducting procurement related activities for the period as outlined above. This would enable the MM to report to the Mayor / council on the implementation of the SCM Policy by DBNLM, and ultimately report to the relevant Treasury Office.

Legislative Framework

Municipal SCM Regulation 6(3)

SCM Structure

The current arrangement at SCM fits the current circumstances but finalization of the organogram processes up to placement is more needed for long term purposes, in order for clear functions and reporting lines. In terms of compliance under amalgamation and known as DR Beyers Naudé Local Municipality SCM is compliant on issues ranging from segregation including isolation of responsibility.

Order Processing

Ms Adoré Slavers as the starting point at SCM Unit for requisition capturing is still experiencing huge challenges with Officials that expect her to operate just-in-time when processing orders. The officials' expectation is that they must hand deliver the requisition and immediately walk out with an approved order slip. The clerk has other commitments forming part of her daily duties that all officials must respect. Thus, the turnaround time for capturing and approving an order has been discussed and approved to be 2 days from the day of receiving the requisition duly authorized by the relevant Head of Department. This would reduce unnecessary pressure and allow our SCM Official to efficiently and effectively execute their duties – There has also been two other officials assisting with the capturing, due to the increase in workload as a result of the amalgamation.

DBNLM Municipal Supplier Database

The Municipality currently utilises the Central Supplier Database as database for compliant supplier / prospective suppliers in line with the requirements of national treasury circular 81 of 2016. Thus, all suppliers of commodities procured for the Municipality are vigorously cross referenced to the CSD to ensure all is in order and the MAAA number corresponds and valid. Further the Municipality affords opportunity, support and assistance to non-CSD registered potential suppliers interested in registering on CSD in order to expand business horizons and do business with the Municipality.

Contracts on the Contract Register

The following contracts are on a month to month basis:

- Graaff-Reinet Security
- MunComp Systems
- Syntell Networks
- R-Data
- Setplan

These contracts have been forthcoming from the former local municipalities and are currently investigated to ensure a proper way forward. A new tender has already been advertised for the provision of security services. A tender will also be advertised for a new prepaid vending system which will address the issue of Syntell.

Bid Committees

The BSC, BEC & BAC are fully functional committees for the DBNLM procurement processes. All legislated requirements are fairly satisfied. The challenge currently experienced is re-scheduling of meetings due to inability of members to attend planned meetings for various reasons.

Procurement Plan

The plan for 2017/18 is developed and being implemented, and SCM experience challenges with regards to the time frames in the procurement plan and departments have been requested to adhere to the time frames.

Procurement above R30K Vat Inclusive

The SCM regulations, including PPPFA plus DBNLM SCM Policy prescribe the process that should be followed in case of procurement in excess of R30K including procurement above R200K vat inclusive. Thus, all the prescribed requirements are currently met or properly deviated from when circumstances warrant and only with the final approval of the Accounting Officer and reported to the Municipal Council.

The provincial treasury has been requested to assist on this matter. Further noting that an email regarding CRA has also been sent.
