### **CHAPTER 1**

#### **MAYOR’S REPORT**

Madam Speaker, fellow Councillors and officials. It is my privilege to table the adjustment budget for 2018/19.

Our focus for the adjustment budget was to implement cost cutting measures where needed and to enhance revenue.

The municipality is currently facing severe financial challenges and bold decisions will have to be made to ensure that our municipality becomes financially sustainable. The municipality is currently unable to pay creditors within the required 30 days as per legislation and numerous challenges are being faced daily. It is of utmost importance that all efforts are implemented to turn the situation around and to ensure that we receive all income due to us.

EXCO recommended during the tabling of the adjustment budget that electricity meters must be installed by 31 March 2019 which will replace the old faulty meters. Funds that will be received from Department of Water Affairs for the replacement of water meters must be spend speedily as this will ensure an immediate improvement on our revenue.

A directive for further cost cutting measures and proposals to improve revenue was issued by the Municipal Manager to all staff. The implementation thereof should be monitored closely.

The mid-year budget and performance assessment for 2018/19 financial year was tabled in Council on 23 January 2019. Recommendations were made in the report that an adjustments budget be drafted as a result of some of the variances detailed in the assessment.

In terms of section 28 of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) a municipality may revise an approved budget through an adjustment budget.

Municipal adjustments budgets:-

- must adjust the revenue and expenditure estimates downwards if there is material under-collection of revenue during the current year;
- may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;
- may, within a prescribed framework, authorise unforeseeable and unavoidable expenditure recommended by the mayor of the municipality;
- may authorise the utilisation of projected savings in one vote towards spending under another vote;

- may authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current year was approved by council;
- may correct any errors in the annual budget; and
- may provide for any other expenditure within a prescribed framework.

Section 23 of the Municipal Finance Management Act, 2003 (56/2003): Municipal budget and reporting regulations stipulates as follows:-

***Timeframes for tabling of adjustments budgets***

- An adjustments budget referred to in section 28 (2) (b), (d) and (f) of the Act may be tabled in the municipal council at any time after the mid-year budget and performance assessment has been tabled in the council, but not later than 28 February of the current year.

The main reasons for the adjustment budget could be summarised as follow:-

- Increase in revenue
- Correction of grants received and expenditure on grants'
- Including additional grants to be received and the related expenditure
- Reduction of Municipal infrastructure (MIG) and Regional Bulk Infrastructure (RBIG) grants
- Increase in salary related cost due to equalisation
- Savings on Contracted services
- Increase in depreciation
- Cost cutting measures reducing general expenditure & repairs and maintenance

## **CHAPTER 2**

### **COUNCIL RESOLUTION**

The Council of Dr Beyers Naudè Municipality at a meeting on 28 February 2019 considered the adjustment budget for approval.

Council resolved:

- 1) That Council approves the Adjustment Budget for 2018/2019 MTREF
- 2) That within ten (10) working days after the Municipal Council has approved the Adjustments Budget the Municipal Manager must in accordance with Section 21A of the Municipal Systems Act make public the approved Adjustments Budget and supporting documentation, as well as the resolutions referred to in Regulation 25(3).
- 3) That within ten (10) working days after the Municipal Council has approved the Adjustments Budget it be submitted to National and Provincial Treasury
- 4) That the SDBIP be revised to include the changes to performance indicators as per adjustment budget

## **CHAPTER 3**

### **EXECUTIVE SUMMARY**

The indication from the mid-year budget and performance assessment was that an adjustments budget was necessary to accommodate

- Adjust grants for the reduction in MIG and RBIG
- Inclusion of additional drought relief funds
- Decrease in interest earned for external investments and debtors
- Increase in employee cost due to equalisation
- Increase in depreciation
- Reduction in contracted services due to contracts of Maxprof and Revco that came to end

The capital budget was increased to accommodate the projects relating to the drought relief funds, but was also adjusted to accommodate the reduction in MIG of R4 million and RBIG of R6 million.

The MIG projects were adjusted as proposed by the Engineering and Planning Department. The reduction of R4 million for MIG will not have any financial implications to Council as the projects that have been reduced were not yet in construction phase and tenders have not yet been awarded.

A summary of the operational adjustment budget is as follows:

As can be seen, Revenue (excluding Capital Transfers) increased with R11.6 million which is mainly due to increase in service charges – R17.2 million and an increase in Transfers recognised - operational – R3.7 million. Rates saw a decrease of R3.6 million mainly due to increased subsidies.

The increase in transfers recognised is a result of R1.9 million increase in the Water Conservation and Demand management grant which was incorrectly budgeted for in the original budget. The Sarah Baartman District Municipality is also currently assisting with paying some of our creditors relating to water pumps and water trucks to the value of R567 000. A portion of the Municipal Systems Improvement Grant (MSIG) will be paid directly to the Municipality to the value of R1.055 million.

Interest earned had to be decreased with R5.6 million mainly due to reduction in anticipated interest on debtors which will be reduced with R4.3 million. Interest on debtors is significantly less after the write off of bad debt at 30 June 2018.

The increase in service charges is based on the latest trends as discussed in the mid-year budget and performance assessment.

Expenditure increased with R15.2 million due to:

- Increase in depreciation – R30.3 million – previously under estimated
- Increase in employee cost – R17.3 million – due to equalisation
- Increase in debt impairment – R2 million – based on collection rate
- Decrease in contracted services – R2.7 million – contracts that came to end
- Decrease in finance charges – R2.7 million – interest written off by AG
- Decrease in other expenditure – R28 million – implementation of cost cutting measures

The budget however remains unfunded. The budget for the next financial year will have to see some serious reconstruction to work towards a funded budget.

The capital transfers saw a nett increase of R19.8 million. This is due to the inclusion of R30 million of drought relief funds to be received and the reduction of R4 million on MIG and R6 million on RBIG.

## **PART 2 – SUPPORTING DOCUMENTATION**

### **CHAPTER 4**

#### **ADJUSTMENTS TO BUDGET ASSUMPTIONS**

When preparing a budget, certain assumptions are usually made. When compiling the annual budget for 2018/19 certain assumptions were made with regards to external factors and the current economic climate. None of these assumptions made in the original budget were changed during the compilation of the adjustment budget.

Below is summary of original assumptions made:

- The priorities and targets, relating to the key strategic focus areas, as outlined in the IDP.
- The need to enhance the municipality's revenue base.
- The level of property rates and tariff increases to take into account the need to address maintenance and infrastructural backlogs, including the expansion of services.
- The level of property rates and tariff increases to ensure the delivery of services on a financially sustainable basis.
- Raising of loan funding should be considered to address critical needs.

#### **ADJUSTMENTS TO REVENUE**

Revenue estimates have changed in the adjustment budget based on actual revenue generated during the first 6 months. Revenue increased from R297.8 million to R308.3 million.

Property Rates saw a decrease of R3.6 million whilst service charges saw an increase of R17.2 million.

Transfers and subsidies (operational) increased with R3.7 million due to the following:

- Correction of Water Conservation and Demand Management grant – R1.9 million
- Grant in Aid from Sarah Baartman District Municipality – R566 000
- Other Corrections – R181 thousand
- MSIG converted to direct transfer – R1.055 million

## **ADJUSTMENT TO EXPENDITURE**

Expenditure increased from R366 million to R381.3 million. The main reasons for increase can be summarised as follow:

- Increase in employee cost to accommodate – R17.3 million mainly due to equalisation
- Increase in debt impairment – R2 million – collection rate only at 80%
- Increase in depreciation R30 million
- Decrease in finance charges – R2.7 million
- Decrease in contracted services – R2.7 million – Revco and Maxprof contract that came to end
- Decrease in other expenditure – R28.3 million which includes a reduction on repairs and maintenance of R5.1 million

## **ADJUSTMENT TO CAPITAL EXPENDITURE**

The capital budget were amended to include the additional projects relating to the drought relief funds to be received and the adjustment to the MIG project plan for the reduction of R4 million

The RBIG will also be reduced with R6 million as the Jansenville project will no longer be implemented during this year. The municipality is not the implementing agent on this project.

Capital out of own funding were reduced due to cash constraints.

The Engineering and Planning department has adjusted the MIG project plan as follows:
