1.2 Financial Performance

This section of the report focuses on the financial health of the municipality as reflected in the monthly budget statement submitted. Information regarding revenue collection and expenditure are detailed in this section.

1.2.1 Operating Revenue

The revenue performance for the month reflects that the municipality generated an amount of (R109 million) or 27.9 % of the total operating revenue budget of R393 million.

The performance of the individual items are as follows:

- **Property Rates:** The total budget amounts to R40.9 million, while the year to date revenue generated amounts to R35.6 million or 86.8 per cent of the budget. Annual debit raising was done in July 2019.
- **Service Charges:** The total budget amounts to R197 million, the year to date revenue recognition amounts to R25 million or 13 per cent of the budget. Annual debit raising on certain service charges e.g. sanitation and refuse
- **Investment revenue:** The total budget amounts to R3 million, the year to date receipts were recorded at R71 thousand or 2.17 per cent of the budget.
- **Transfers recognised:** The total budget amounts to R102 million, the year to date receipts stands at R37.8 million or 37 per cent of the original budget.
- **Other revenue:** The total budget amounts to R 15.5 million, the year to date revenue generated amounts to R 2.2 million or 14.6 per cent of the original budget.

1.2.2 Operating Expenditure

Total expenditure for the month amounts to R 16.7 million or 4.27 % per cent of the total expenditure budget of R 392 million. The following factors should be taken into consideration:

- Depreciation not calculated on monthly basis
 - There is still no integration between the asset management system and the financial system. This has been discussed on a number of occasions with the service provider and is becoming a real concern. True mSCOA compliance cannot be obtained unless all systems seamlessly integrate to the financial system. Various meetings with the service provider and provincial treasury was held already to try and resolve this issue. It is anticipated that integration will be concluded by end of October 2019

The performances of the individual items are as follows:

- **Employee Related Costs:** The original budget amounts to R156 million, while the expenditure to date amounts to R11.9 million or 7.59 per cent of the original budget.
- **Remuneration of Councillors:** The original budget amounts to R9.9million, while the expenditure to date amounts to R776 thousand or 7.8 per cent of the original budget.
- **Debt impairment:** The original budget amounts to R3.8 million, while year to date expenditure amounts to R0. The underspending is due to impairment calculation being done annually.
- **Depreciation:** The original budget amounts to R 65.8 million, while the year to date expenditure amounts to R2 thousands. The underspending is due to calculation being done quarterly.
- **Bulk Purchases:** The original budget amounts to R 90.6 million, while the year to date expenditure amounts to R0. Invoices are still being captured.
- **Other expenditure:** The original budget amounts to R63.6 million, while the year to date expenditure amounts to R3.9 million or 6.29 per cent of the original budget. The municipality is still struggling financially and the cash flow is currently under severe pressure. Cost containment measures have been implemented and a revised financial recovery plan approved by Council.

3.1 Cash management

The cash flow is managed daily, and the CFO the MM is advised on a weekly basis of the projected cash flow requirement. The municipality is facing severe cash flow constraints and does not have any cash backed reserves that could assist in the relief of monthly cash flow constraints. Cost containment measures has been implemented and a revised financial recovery plan approved by Council. A cash committee has been established which meets once a month to recommend payments.

Cash flow statement for the month is attached as part of Annexure A.

3.2 Investments

Regulation 9 of the Investment regulations requires that the Accounting officer of a municipality must within 10 working days of the end of each month, as part of the section 71 report submit to the Mayor a report describing in accordance with generally recognized accounting practice the investment portfolio of the municipality as at the end of the month.

The report must contain at least:

- (i) the market value of each investment at the beginning of the period
- (ii) any changes to the investment portfolio during the reporting period
- (iii) the market value of each investment at the end of the period
- (iv) fully accrued interest and yield for the reporting period.

Investments consist of short-term deposits made from conditional grants received.

Attached as part of Annexure A is a schedule reflecting all investments for the period ending 31 July 2019

3.3 Borrowings

The municipality does not have borrowings.

4. **PERFORMANCE ON REVENUE COLLECTION**

2019				

The collection rate for the month of July 2019 was recorded as 16.38% (refer to annexure). Average collection rate for the year to date is 16.38%. Annual rates were levied in July 2019 and is due on 30 September 2019.

The credit control policy is being implemented and electricity is disconnected or blocked on a monthly basis when accounts are in arrears. Indigent applications are still being processed and verified.

There is continuous interaction with government departments to ensure they pay their outstanding accounts.

Chart: Average Collection rate

As can be seen from the two charts above, the average collection rate has decreased in comparison with previous financial year at the same time. This is a huge concern and all efforts will have to be implemented to ensure that debt collection percentage increases in the next financial year. Management is in the process of ensuring that the staff capacity in this section is increased.

DEBT BY SERVICE

Besides property rates, water remains the biggest outstanding debt. In times of drought like we are experiencing this is a concern. The quality of our water will be jeopardised if the necessary chemicals cannot be procured. The maintenance of pumps is a concern and continued non-payment by residents and business will have an adverse effect on the service delivery. People are also not adhering to the water restrictions implemented and the huge water losses being reported results in huge financial losses to the municipality. The water losses are mainly due to faulty meters in our areas which needs to be replaced as matter of urgency.

The current carting of water to areas who cannot receive water due to low pressure will have a negative impact on the revenue generation as the municipality cannot bill for water.

The outstanding debt on waste management has an adverse effect on the delivering of this service. Waste management needs vehicles and equipment and landfill sites needs to be maintained. With this huge outstanding debt services are negatively affected.

The outstanding debt on electricity is a concern as the municipality is currently struggling to service the bulk electricity account from Eskom.

ANNEXURE B

RE : MONTHLY SCM REPORT: JULY 2019

Purpose

This report is intended to project the implementation of the SCM Policy in conducting procurement related activities for the period as outlined above. This would enable the MM to report to the Mayor / council on the implementation of the SCM Policy by DBNLM, and ultimately report to the relevant Treasury Office.

Legislative Framework

Municipal SCM Regulation 6(3)

SCM Structure

The current arrangement at SCM fits the current circumstances but finalization of the organogram processes up to placement is more needed for long term purposes, in order for clear functions and reporting lines. In terms of compliance under amalgamation and known as DR Beyers Naudé Local Municipality SCM is compliant on issues ranging from segregation including isolation of responsibility.

Order Processing

Training has been held with the SCM staff for the rollout of the electronic ordering process. This will assist us in the future as we try and phase out the manual requisitions and speed up the processing of orders. Training has been held with other departmental managers and relevant staff regarding this process. The electronic order process is set to go live 1st August 2019.

DBNLM Municipal Supplier Database

The Municipality currently utilizes the Central Supplier Database as database for compliant supplier / prospective suppliers in line with the requirements of national treasury circular 81 of 2016. Thus, all suppliers of commodities procured for the Municipality are vigorously cross referenced to the CSD to ensure all is in order and the MAAA number corresponds and valid. Further the Municipality affords opportunity, support and assistance to non-CSD registered potential suppliers interested in registering on CSD in order to expand business horizons and do business with the Municipality.

Contracts on the Contract Register

The following contracts are on a month to month basis:

- Setplan
- Internet Generation

The Internet Generation contract has expired and has thus reverted to a month-to-month basis until contract is renewed.

Bid Committees

The BSC, BEC & BAC are fully functional committees for the DBNLM procurement processes. All legislated requirements are fairly satisfied. The challenge currently experienced is re-scheduling of meetings due to inability of members to attend planned meetings for various reasons.

Procurement Plan

The plan for 2019/20 has been finalized and implemented.

Procurement above R30K Vat Inclusive

The SCM regulations, including PPPFA plus DBNLM SCM Policy prescribe the process that should be followed in case of procurement in excess of R30K including procurement above R200K vat inclusive. Thus, all the prescribed requirements are currently met or properly deviated from when circumstances warrant and only with the final approval of the Accounting Officer and reported to the Municipal Council.
