3.1 Cash management

The cash flow is managed daily and the CFO the MM is advised on a weekly basis of the projected cash flow requirement. The municipality is facing severe cash flow constraints and does not have any cash backed reserves that could assist in the relief of monthly cash flow constraints. Cost containment measures has been implemented and a revised financial recovery plan approved by Council. A cash committee has been established which meets weekly to recommend payments.

Cash flow statement for the month is attached as part of Annexure A.

3.2 Investments

- (ii) any changes to the investment portfolio during the reporting period
- (iii) the market value of each investment at the end of the period
- (iv) fully accrued interest and yield for the reporting period.

4. PERFORMANCE ON REVENUE COLLECTION

Table: Collection Rate for October 2019

| MONTH | AMOUNTS BILLED | CASH RECEIVED | FOR THE MONTH | AVERAGE COLLECTION RATE YEAR TO DATE |
|-----------------|----------------|---------------|---------------|--------------------------------------|
| | R'000 | R'000 | | |
| October 2019 | 14 778 | 18 814 | 127.31 | 65.13 |

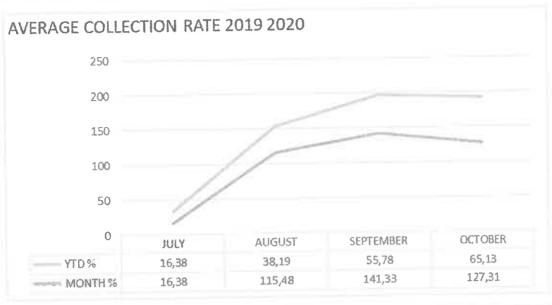

The collection rate for the month of Oct 2019 was recorded as 127.31% (refer to annexure). Average collection rate for the year to date is 65.13%. Annual rates were levied in July 2019 and was due on 30 September 2019.

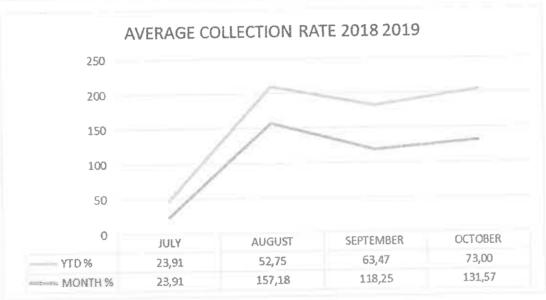

The credit control policy is being implemented and electricity is disconnected or blocked on a monthly basis when accounts are in arrears. Indigent applications are still being processed and verified.

There is continuous interaction with government departments to ensure they pay their outstanding accounts.

Management is currently implementing various findings in the Revenue Completeness project that was funded by the district municipality in the previous financial year.

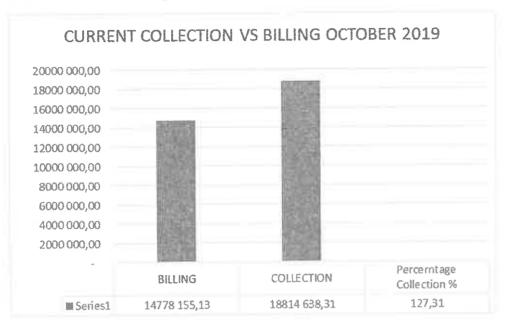

Chart: Average Collection rate

As can be seen from the two charts above, the average collection rate has decreased in comparison with previous financial year at the same time. This is a huge concern and all efforts will have to be implemented to ensure that debt collection percentage increases during the financial year. Management is in the process of ensuring that the staff capacity in this section is increased. Management is currently implementing the findings on the revenue completeness exercise conducted by Sarah Baartman District Municipality in the previous financial year.

Debtors owing between 0-30 days amounts to R13 million, 30-60 days constitute R5.4 million. Debtors owing over 1 year constitute R12.9 million or 13 per cent, while the debt over 90 days constitute R68.5 million or 69.1 per cent which is alarming and has an adverse effect on cash flow.

Besides property rates, water remains the biggest outstanding debt. In times of drought like we are experiencing this is a concern. The quality of our water will be jeopardised if the necessary chemicals cannot be procured. The maintenance of pumps is a concern and continued non-payment by residents and business will have an adverse effect on the service delivery. People are also not adhering to the water restrictions implemented and the huge water losses being reported results in huge financial losses to the municipality. The water losses are mainly due to faulty meters in our areas which needs to be replaced as matter of urgency.

The current carting of water to areas who cannot receive water due to low pressure will have a negative impact on the revenue generation as the municipality cannot bill for water.

The outstanding debt on waste management has an adverse effect on the delivering of this service. Waste management needs vehicles and equipment and landfill sites needs to be maintained. With this huge outstanding debt services are negatively affected.

The outstanding debt on electricity is a concern as the municipality is currently struggling to service the bulk electricity account from Eskom.

RE : MONTHLY SCM REPORT: OCTOBER 2019

Purpose

This report is intended to project the implementation of the SCM Policy in conducting procurement related activities for the period as outlined above. This would enable the MM to report to the Mayor / council on the implementation of the SCM Policy by DBNLM, and ultimately report to the relevant Treasury Office.

Legislative Framework

Municipal SCM Regulation 6(3)

SCM Structure

The current arrangement at SCM fits the current circumstances but finalization of the organogram processes up to placement is more needed for long term purposes, in order for clear functions and reporting lines. In terms of compliance under amalgamation and known as DR Beyers Naudé Local Municipality SCM is compliant on issues ranging from segregation including isolation of responsibility.

Order Processing

The electronic order process is ongoing. The requisitions are now being captured by the PA's in the respective departments and approved by the relevant HOD.

DBNLM Municipal Supplier Database

The Municipality currently utilizes the Central Supplier Database as database for compliant supplier / prospective suppliers in line with the requirements of national treasury circular 81 of 2016. Thus, all suppliers of commodities procured for the Municipality are vigorously cross referenced to the CSD to ensure all is in order and the MAAA number corresponds and valid. Further the Municipality affords opportunity, support and assistance to non-CSD registered potential suppliers interested in registering on CSD in order to expand business horizons and do business with the Municipality.

Contracts on the Contract Register

The following contracts are on a month to month basis:

- Setplan
- Internet Generation

The Internet Generation contract has expired and has thus reverted to a month-to-month basis until contract is renewed.

Bid Committees

The BSC, BEC & BAC are fully functional committees for the DBNLM procurement processes. All legislated requirements are fairly satisfied. The challenge currently experienced is re-scheduling of meetings due to inability of members to attend planned meetings for various reasons.

Procurement Plan

The plan for 2019/20 has been finalized and implemented.

Procurement above R30K Vat Inclusive

The SCM regulations, including PPPFA plus DBNLM SCM Policy prescribe the process that should be followed in case of procurement in excess of R30K including procurement above R200K vat inclusive. Thus, all the prescribed requirements are currently met or properly deviated from when circumstances warrant and only with the final approval of the Accounting Officer and reported to the Municipal Council.
