### 1.2 Financial Performance

This section of the report focuses on the financial health of the municipality as reflected in the monthly budget statement submitted. Information regarding revenue collection and expenditure are detailed in this section.

#### 1.2.1 Operating Revenue

The revenue performance for the month reflects that the municipality generated an amount of (R 95 thousand) and YTD: R 202 million or YTD: 63.6% of the total operating revenue budget of R316 million.

*The performance of the individual items are as follows:*

- **Property Rates:** The total budget amounts to R43.5 million, while the year to date revenue generated amounts to R36.5million or 83.9 per cent of the budget. Annual debit raising was done in July 2017
- **Service Charges:** The total budget amounts to R147.2 million, the year to date revenue recognition amounts to R93.4 million or 63.4 per cent of the budget. Annual debit raising on certain service charges e.g. sanitation and refuse
- **Investment revenue:** The total budget amounts to R1.3 million, the year to date receipts were recorded at R1.3 million or 98.9 per cent of the budget. Investments kept for longer periods than anticipated.

**Transfers recognised:** The total budget amounts to R107 million, the year to date receipts stands at R64.9 million or 60.4 per cent of the budget. An amount of R12 million was withheld from the 1 December 2017 Equitable Share instalment due to the following reasons:

- An amount of R2 463 166 of the Integrated National Electrification Grant was not approved as rollover from 2016/17 and reverted back to the National Revenue fund
- An amount of R1 564 933 for Expanded Public Works Programme Grant was not approved as rollover from 2016/17 and reverted back to the National Revenue fund
- An amount of R8 716 347 was withheld due to a difference in monthly grant reporting and Annual Financial statements for 2016/17.
- The decision was based on the pre-audited AFS for 2016/17. The municipality is disputing the amounts withheld and, with the assistance of the Sarah Baartman District municipality and the EC Provincial Treasury, has submitted a motivation and requested National Treasury to reconsider their decision. An outcome is awaited.

- **Other revenue:** The total budget amounts to R 17.2 million, the year to date revenue generated amounts to R 5.4 million or 31.8 per cent of the budget. This revenue source is currently much lower than anticipated and will have to be monitored. Items included in this category which are currently not yielding the revenue as anticipated are Licenses and permits which has yielded only 37% of the budgeted revenue and Gains on disposal of PPE which has yielded less than 1% of the budgeted revenue.

### 1.2.2 Operating Expenditure

Total expenditure for the month amounts to R 20 million (YTD: R 173 million) or 5 % per cent (YTD: 43.6) of the total expenditure budget of R 397.9 million. The following factors should be taken into consideration:

- Depreciation not calculated on monthly basis
  - The municipality has embarked on a project to integrate the electronic asset register with the financial system. This will enable the calculation of depreciation on a monthly or quarterly basis.
- Debt impairment not calculated on monthly basis
  - Due to the volume of debtors, this calculation is done annually at year-end. Each debtor is then evaluated for possibility of recover based on past history, payment trends and risks associated with each type of debtor.

*The performances of the individual items are as follows:*

- **Employee Related Costs:** The budget amounts to R126.4 million, while the expenditure to date amounts to R74.4 million or 58.8 per cent of the budget.
- **Remuneration of Councillors:** The budget amounts to R9.1 million, while the expenditure to date amounts to R5.6 million or 61.4 per cent of the budget.
- **Debt impairment:** The budget amounts to R8.8 million, while the year to date expenditure reflects R35 thousand. The underspending is due to impairment calculation being done annually.
- **Depreciation:** The budget amounts to R 71.1 million, while the year to date expenditure amounts to R0. The underspending is due to calculation being done annually.
- **Bulk Purchases:** The budget amounts to R 61.8 million, while the year to date expenditure amounts to R43.6 million or 70.5 per cent of the budget.
- **Other expenditure:** The budget amounts to R128.9 million, while the year to date expenditure amounts to R49.8 million or 38.6 per cent of the budget. Other expenditure which is currently below the 50% benchmark:
  - **Repairs & Maintenance** – only 26% of the budget has been spent to date
  - **Running cost of vehicles** – only 41% of the budget has been spent to date

A number of other smaller line items will be adjusted downwards during the adjustment budget process.

The municipality is still struggling financially and the cash flow is currently under severe pressure. Cost containment measures have been implemented and a revised financial recovery plan approved by Council.

### Capital Revenue: Sources of Finance

Capital revenue represents the sources of finances utilised to fund capital expenditure. There are a number of sources from which capital revenue is sourced; the major source of capital financing is from Government Grants and Subsidies since the municipality has a small revenue base.

*The performances of the individual items are as follows:*

- **Governance and administration:** reflects total budget of R1.5 million, while the expenditure to date amounts to R158 thousand or 10.4 per cent of the budget. A project for network upgrades is under way and tender has been advertised.
- **Community and Public Safety:** reflects total budget of R4 million while the expenditure to date amounts to R 1.3 million or 32.2 per cent of the budget. The budget will be amended to be in line with the signed service level and funding agreement with the Sarah Baartman District municipality
- **Economic and environmental services:** reflects total budget of R2.3 million, while the expenditure to date amounts to R 7.6 million or 328 per cent of the budget. This reflects expenditure on roll-over grants which will have to be included in adjustment budget.
- **Trading services:** reflects a budget of R56.8 million, while the expenditure to date amounts to R 26.6 million or 45 per cent of the budget. An amount of R8,3 million spent on RBIG still needs to be transferred to the capital votes which will bring expenditure to 49%. Approved roll over projects will be included in the adjustment budget.

- (ii) any changes to the investment portfolio during the reporting period
- (iii) the market value of each investment at the end of the period

The municipality is experiencing cash flow problems and creditors cannot be paid within the legislatively required 30 days. The municipality has reviewed its Financial Recovery plan to ensure improved financial health and is currently busy with developing a revenue enhancement strategy.

Payment arrangements have been entered into with Eskom, Auditor General and Department of Transport whilst a revised payment arrangement has been forwarded to SALGA.

Litigation cost inherited from the amalgamation is continuing to put additional strain on the municipality which we can ill afford.

## 10. OTHER ANALYSIS

### 10.1 WATER AND ELECTRICITY ANALYSIS (Distribution losses)

Please note that when this report was compiled the figures for January 2018 were not available.

#### 10.1.1 WATER LOSSES

##### Water Statistics Dr Beyers Naude

Month	Water pump	Water sold/	Loss	Loss
	to Town	to Town	Kl.	%
Dec-17	441 349	35 189	19 354	4

Water losses for December 2017 were calculated at 4% (YTD average:16,79 %)

*Billing seems to be problematic due to incorrect readings – in some areas billing are far more than water production/usage. An investigation with regards to the meter reading in Aberdeen indicated that meters linked to the “municipal tariff” (own consumption) is extremely high.*

*Some areas are not billed for water due to no meters installed (straight connections)*

#### 10.1.2 ELECTRICITY LOSSES

##### Electricity Statistics Dr Beyers Naude Municipality

Month	Kwh Sold	Kwh Bought	Difference	Difference
			Kwh	%
Dec-17	4 347 702	6 947 478	2 599 776	37.42

Electricity losses for January 2018 was not available at time of report due to problems experienced with prepaid sales servers and therefore reports could not be provided. The electricity losses up to December 2017 were calculated at 37.42% (YTD average: 23,27%)

The municipality must embark on an investigation to identify straight connections and/or broken meters. Finance department must also ensure that all households are billed for consumption of services.

Please refer to annexure A for detail calculations.

**RE : MONTHLY SCM REPORT: JANUARY 2018**

---

### **Purpose**

This report is intended to project the implementation of the SCM Policy in conducting procurement related activities for the period as outlined above. This would enable the MM to report to the Mayor / council on the implementation of the SCM Policy by DBNLM, and ultimately report to the relevant Treasury Office.

### **Legislative Framework**

Municipal SCM Regulation 6(3)

### **SCM Structure**

The current arrangement at SCM fits the current circumstances but finalization of the organogram processes up to placement is more needed for long term purposes, in order for clear functions and reporting lines. In terms of compliance under amalgamation and known as DR Beyers Naudé Local Municipality SCM is compliant on issues ranging from segregation including isolation of responsibility.

### **Order Processing**

Ms Adoré Slavers as the starting point at SCM Unit for requisition capturing is still experiencing huge challenges with Officials that expect her to operate just-in-time when processing orders. The officials' expectation is that they must hand deliver the requisition and immediately walk out with an approved order slip. The clerk has other commitments forming part of her daily duties that all officials must respect. Thus, the turnaround time for capturing and approving an order has been discussed to be 2 days from the day of receiving the requisition duly authorized by the relevant Head of Department. This would reduce unnecessary pressure and allow our SCM Official to efficiently and effectively execute their duties – After this report date it shall be communicated as after endorsement by CFO.

### **DBNLM Municipal Supplier Database**

The Municipality currently utilises the Central Supplier Database as database for compliant supplier / prospective suppliers in line with the requirements of national treasury circular 81 of 2016. Thus, all suppliers of commodities procured for the Municipality are vigorously cross referenced to the CSD to ensure all is in order and the MAAA number corresponds and valid. Further the Municipality affords

opportunity, support and assistance to non-CSD registered potential suppliers interested in registering on CSD in order to expand business horizons and do business with the Municipality.

### **Bid Committees**

The BSC, BEC & BAC are fully functional committees for the DBNLM procurement processes. All legislated requirements are fairly satisfied. The challenge currently experienced is re-scheduling of meetings due to inability of members to attend planned meetings for various reasons.

### **Procurement Plan**

The plan for 2017/18 is developed and being implemented, and SCM experience challenges with regards to the time frames in the procurement plan and departments have been requested to adhere to the time frames.

### **Procurement above R30K Vat Inclusive**

The SCM regulations, including PPPFA plus DBNLM SCM Policy prescribe the process that should be followed in case of procurement in excess of R30K including procurement above R200K vat inclusive. Thus, all the prescribed requirements are currently met or properly deviated from when circumstances warrant and only with the final approval of the Accounting Officer and reported to the Municipal Council.
