### 5.1. Cash management

The cashflow is managed daily, and the CFO and MM are advised on a weekly basis of the projected cashflow requirements. The municipality is facing severe cashflow constraints and does not have any cash-backed reserves that could assist in the relief of monthly cashflow constraints. Cost containment measures have been implemented, and a revised Financial Recovery Plan was approved by Council. The Cost Containment and Long-Term Financial Planning Policies have been developed and were approved with the 2024/2025 budget.

A Cashflow Statement for the month is attached as part of Annexure A.

### 5.2. Investments

Regulation 9 of the Investment regulations requires that the Accounting Officer of a municipality must within 10 working days of the end of each month, as part of the section 71 report, submit to the Mayor a report describing, in accordance with generally recognized accounting practice, the investment portfolio of the municipality as at the end of the month.

The report must contain at least:

- (i) the market value of each investment at the beginning of the period,
- (ii) any changes to the investment portfolio during the reporting period,
- (iii) the market value of each investment at the end of the period, and
- (iv) fully accrued interest and yield for the reporting period.

Investments consist of short-term deposits made from conditional grants received.

Attached as part of Annexure A is a schedule reflecting all investments for the period ending 31 March 2025.

### 5.3. Borrowings

The municipality does not have borrowings.

## 6. PERFORMANCE ON REVENUE COLLECTION

**Table: Collection Rate for March 2025**

The collection rate for the month of March was recorded as 85.16% (refer to Annexure A). As from October 2024, the municipality has changed the way in which it derives the average collection rate. Previously, the average collection rate was calculated using the mean of year-to-date monthly percentages. Now, the average collection rate will be calculated using the mean of year-to-date monthly totals in Rand. Restated, the average collection rate for the year-to-date is 67.47%. Annual rates were levied in July 2024 and became due on 30 September 2024.

The Credit Control Policy is being implemented and electricity is disconnected and blocked monthly when accounts are in arrears. Indigent applications are still being processed and verified. There is continuous interaction with government departments to ensure they pay their outstanding accounts. Residents are once more urged to enquire accounts where they have issues and make payment while disputes are being resolved, as this might lead to arrears and interest being charged if the enquiry is considered invalid.

Attached as part of Annexure A is a breakdown of the collection levels per service for the month of March 2025.

### Charts: Average Collection Rates

**AVERAGE COLLECTION RATE 2024 2025**

### AVERAGE COLLECTION RATE 2023 2024

As can be seen from the two charts above, the average collection rate is lower than the average collection rate of the previous financial year at the same time. Debt collection techniques have been implemented to improve the collection rate. To improve its collection, the municipality continues to progressively install smart pre-paid meters in municipality-supplied areas. To further ensure that the debt collection percentage increases throughout the financial year, the municipality also makes use of the professional debt collector appointed during the previous financial year. Management is in the process of ensuring that the staff capacity in this section is increased.

Debtors owing between 0-30 days amounts to R 22.0 million, and 30-60 days constitute R 13.8 million. Debtors owing over 210 days constitute R 330.7 million or 78.70%, while the debt over 90 days constitute R 372.1 million or 88.55%. This is alarming and has an adverse effect on cash flow.

Water remains the biggest outstanding debt, followed by waste water management, waste management and property rates. The continued non-payment by residents and businesses has an adverse effect on service delivery as the quality of our water will be jeopardised if the necessary chemicals cannot be procured and the pumps not adequately maintained. Residents are urged to use water sparingly, and the huge water losses being reported results in great financial losses to the municipality. The water losses are mainly due to faulty meters in our areas which needs to be replaced as a matter of urgency.

When water pressure is low, the carting of water to areas which cannot receive water has a negative impact on the revenue generation as the municipality cannot bill for water.

The outstanding debt on waste management has an adverse effect on the delivering of this service. Waste management needs vehicles and equipment, and landfill sites needs to be maintained. With this huge outstanding debt services are negatively affected.

The outstanding debt on electricity is a concern. However, the municipality remains committed to settling the bulk electricity account from Eskom.

**13. MUNICIPAL DEBT RELIEF**

The municipality's application for Municipal Debt Relief was successful. In terms of MFMA Circular 124, it is anticipated that by writing-off the historic/arrear Eskom municipal debt (as part of government's conditions for the debt relief to Eskom), Municipal Debt Relief will facilitate the restoration of financial best practice and will also free some revenue in the municipalities owing Eskom in order to maintain their current bulk accounts, other creditors and provide a reliable basic level of services. To benefit from Municipal Debt Relief, the municipality must meet the applicable set of conditions set out in the circular.

Attached as Annexure B are the monthly Municipal Debt Relief monitoring annexures required per MFMA Circular 124, for the period ending 31 March 2025.

Given the low compliance levels reported by the Municipality and the fact that all the municipal debt relief conditions are equally important to the annual write off, it is important that attention be drawn to the following areas:

- Timeous payment of the ESKOM current account as no payment has been made in relation to the December 2024 ESKOM current account. This persistent non-compliance presents a risk to the Municipality's continued participation in the Municipal Debt Relief Programme as per the final warning notice issued by the National Treasury in December 2024;
- Timeous uploading of key information such as the bank statements, proof of payments and the approved/signed section 71 narrative report to the GOMUNI portal; and
- Monthly reconciliation of the valuation roll and the billing system.

The monthly section 71 report that includes a section on implementation of the Municipal Debt Relief programme as this is to continuously appraise Councillors and other stakeholders of the compliance levels about the MFMA Circular 124. The non-compliance areas reflected above will negatively affect the Municipality's chances for the first write off due to the Municipality, hence it is important for the Municipality to progressively improve on the above.

### Condition 6.3 - Maintaining the Eskom bulk current account

The Current account for purposes of the Dr Beyers Naude LM's debt relief approval means the total Eskom charges for the billing period plus VAT and any component that is due in terms of a payment arrangement envisaged in paragraph 2 of the NT debt relief approval letter. The Municipality failed to make payment towards its current ESKOM bulk account for December 2024. The non-payment of current accounts by the Municipality is a serious breach of the conditions set out in MFMA Circular 124.

#### **Condition 6.4 - A funded MTREF**

The Municipality adopted an unfunded budget for the 2024/25 MTREF. The arrear ESKOM debt that has accumulated over the years, arrear third party obligations (Pension Funds) and collection rate that is not aligned to the norm applicable to municipalities are the major reasons the ECPT assessment identified as root causes for the unfunded budget.

The Municipality has adopted a budget funding plan to be implemented with the 2024/25 budget. The funding plan is premised on improved revenue collection and this will require capacity building within the revenue management section of the municipality in areas such as cost reflective tariffs, valuation roll reconciliation, etc. After a slow start in terms of the quarterly collection rate for the first quarter, the average collection rate for the second quarter appears to have significantly improved as 85 per cent was achieved for the quarter ended 31 December 2024.

#### **Condition 6.5 - Cost reflective tariffs**

The Municipality submitted its completed tariff tool (draft and final) with the 2024/25 MTREF and is therefore considered compliant.

#### **Condition 6.6 - Electricity and water as collection tools**

The MFIP Advisor - Municipal Support allocated to the Municipality assisted the Municipality to align its by-laws and policies to best practices, including facilitating alignment to the debt relief conditions. The Municipality has submitted its collection information for the month ended 31 December 2024.

#### **Conditions 6.7 - Maintain a minimum average quarterly collection of property rates and services charges**

This requirement to meet the 85 per cent collection rate threshold is assessed on a quarterly basis. According to the Annexure D submitted for December 2024, the Municipality indicated that a collection of 85 per cent has been attained. Furthermore, during December 2024, the Municipality was supported with the preparation of the Valuation roll reconciliation in order to improve revenue collection.

#### **Condition 6.8 - Completeness of the Revenue Base**

The Municipality has completed the property rates reconciliation tool for Quarter 2 of the 2024/2025 financial year with assistance of the Municipal Support Advisor assigned to ECPT. The reconciliation reflects that the Municipality's financial billing system is not perfectly aligned to its Council approved Part A - General Valuation Roll (GVR) register<sup>1</sup>.

## Condition 6.9 - Monitor and Report on compliance

The EC Provincial Treasury's assessment included confirmation that the monthly Section 71 narrative statement and mSCOA data strings for December 2024 were uploaded to the GoMuni portal and that the Statement fully aligns to the MFMA section 71 Statement published on the municipality's website. The assessment confirmed that the MFMA section 71 narrative statement included the following information:

#### Condition 6.10 - Provincial Treasury certification of municipal compliance

ECPT has complied with the requirements of MFMA Circular 124 in relation to the monthly compliance certificate for December 2024.

#### Condition 6.11 - Limitation on Municipal borrowing powers

The limitation on municipal borrowing powers and the prohibition of borrowing during debt relief periods form a dual regulatory framework aimed at ensuring fiscal responsibility. The Municipality complied with this condition since its debt relief effective date of 01 December 2023, to date.

#### Condition 6.12 - Proper management of resources and Condition 6.13 - Accounting Treatment

The National Treasury: Office of the Accountant General (OAG) issued the Supplementary Guide to MFMA Circular 124 on 21 February 2024. In terms of the guidance, the municipality no longer have to maintain a separate bank account for debt relief purposes as envisaged in MFMA Circular 124 (Condition 6.12), however, irrespective of whether a municipality decides to discontinue a separate bank account, ring-fencing for debt relief purposes must be enabled and demonstrated through the municipality's monthly mSCOA data string submissions.

#### Condition 6.14 - NERSA Licence

Having applied for Municipal Debt Relief, if the council of a municipality fails to comply with any condition of the Relief during the duration of the Municipal Debt Relief programme, agrees to make an application to NERSA to voluntarily revoke the municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act no. 4 of 2006). It is noted that this condition will only come into effect if the Municipality's participation in the debt relief programme is terminated.

## Provincial Treasury Compliance Certification

Provincial Treasury certifies that it monitored and assessed Dr Beyers Naude LM's compliance against the MFMA Circular 124 conditions and NT debt relief approval letter as set-out below in the PT's compliance certificate for the Municipality in relation to the month ended 31 December 2024.

## CONCLUDING REMARKS

The Municipality's financial position has not significantly improved since participating in the Municipal Debt relief program. The overall compliance status has remained stagnant at 68 per cent since November 2024 due to non payment of the ESKOM current account. The monthly collection rate appears to have improved to 85 per cent for the quarter under review (December 2024 Annexure D).

The 2024/25 adopted budget was assessed to be unfunded and the Municipality has developed a budget funding plan. In addition to the funding plan, the Municipality is also implementing a voluntary Financial Turnaround Plan which is monitored on a quarterly basis.

The Municipality struggles to pay its current ESKOM account on time and this is due to cash flow constraints that continue to confront the entity. The National Treasury has issued a final warning notice to the Municipality due to its persistent non-compliance with the municipal debt relief conditions.

Yours sincerely

| <p><i>Note - For example, if the municipality during the preceding 12 months only managed to collect 60 per cent of its revenue (also property rates), the provision for debt impairment aligning with the historic collection trend should align to 40 per cent of the 2023/24 MTREF revenue projections (also property rates). ## **19. ANNEXURE C**

**RE : 2024/25 QUARTERLY SCM REPORT: QUARTER 3**

**Purpose**

This report is intended to project the implementation of the SCM Policy in conducting procurement related activities for the period as outlined above. This would enable the MM to report to the Mayor / council on the implementation of the SCM Policy by DBNLM, and ultimately report to the relevant Treasury Office.

**Legislative Framework**

Municipal SCM Regulation 6(3)

**SCM Structure**

The key positions of SCM Manager and 2 SCM Practitioners have been appointed.

**Order Processing**

All departments have become accustomed to the electronic requisition capturing and processing.

**DBNLM Municipal Supplier Database**

The Municipality currently utilizes the Central Supplier Database as database for compliant supplier / prospective suppliers in line with the requirements of national treasury circular 81 of 2016. Thus, all suppliers of commodities procured for the Municipality are vigorously cross referenced to the CSD to ensure all is in order and the MAAA number corresponds and is valid. Further the Municipality affords opportunity, support, and assistance to non-CSD registered potential suppliers interested in registering on CSD to expand business horizons and do business with the Municipality.

The Municipality is currently working with the system provider R-Data to integrate CSD on Promun, for it to be more easily accessible.

**Contracts that have been extended**

- R-Data
- Muncomp Systems (new tender has been advertised)

**Bid Committees**

The BSC, BEC & BAC are fully functional committees for the DBNLM procurement processes. All legislated requirements are complied with. A new approach has been adopted to improve timeframes during the tender process and is being monitored by the Chief Financial Officer.

**Procurement Plan**

The plan for 2024/25 has been finalized and implemented.

**Purchases processed for the 3<sup>rd</sup> Quarter excluding VAT**

The SCM Regulations, under the Local Government: Municipal Finance Management Act 56 of 2003 prescribes the process of Acquisition management in relation to purchases made and their thresholds. These are detailed in Part 2 of the regulations. "SEE BELOW SUMMARY TABLE FOR QUARTER 3 (JANUARY - MARCH)
